

Dmitry Trager | Software development specialist

dmitry@trager.ru | +7 905 311-88-18 | http://trager.ru

There was a time when I worked with Delphi/C++ and was passionate with Flash/ActionScript. But now I'm full-time Ruby On Rails developer and passionate with Elixir/Phoenix.

In addition to Ruby On Rails, on my current job I do Go programming and some frontend.

I like to be a programmer and solve application tasks. I'm looking for a team working on nontrivial problem sets, that is interesting to dive into.

Experience

Web developer Revealbot, Inc Jan 2019 - Now

Revealbot is a tool for online ads management automation and official Facebook partner. From position of Senior Software Developer I participate in work on:

- clients application (RubyOnRails, Vue.js, ES6)
- API application (Go)
- infrastructure (CI/CD, log management, Ansible deployments etc.)

Assistant Kazan Federal University Sep 2013 - June 2016

System analysis and IT department employee

The main responsibility was to work with students

Web developer Flatstack, LLC Aug 2011 - Dec 2018

As a lead RoR developer I participate in:

- web application development
- meetings with clients
- team management
- internal learning routines
- corporate blog posting
- new project reviews
- test task reviews
- internal knowledge base maintenance

Was working with companies like: datavail.com, gatherit.co, storkup.com, kidandcoe.com, cinetis.com, timebox.camera, avalution.com and others

Software developer Fix LLC Aug 2008 - Dec 2010

Application development using Delphi
Flash application development

Some results:

- main submodule of real time traffic map web application

Software developer Logic Systems Oct 2006 - Aug 2008

Application submodules development using Delphi and Flash

Some results:

- graphic submodule for online ticket sale system
- software for temperature and humidity control in server rooms

Education

Mathematician, system programmer Kazan State University Sept 2003 - June 2008

Specialization: informational security software and mathematical methods

Not finished Volga State University of Telecommunications and Informatics Sept 2002 - May 2003

Skills

Programming

Languages and frameworks: Ruby & RubyOnRails, Golang, a little bit of Elixir & Phoenix. Have some practice with Python.

Frontend: Javascript, jQuery, CoffeeScript, currently work with Vue.js

Databases: MySQL, PostgreSQL, MongoDB

Deployment: Capistrano, Ansible, Chef (worked with Chef on AWS Opsworks)

Software

Mac OS X, Ubuntu

Technical

Git & Github

TDD, RSpec, Capybara/Selenium

Heroku, CI services, AWS

Stripe, Braintree

Also I have some practice with Arduino programming.

Organizational

Agile web development, Scrum

Art

Like my bass guitars, snowboard, football and to play with RaspberryPi

Other skills

My usual responsibilities:

- conversations with clients (mostly in english), demo, further discussions
- task discussions with team, decomposition, sprint planning
- learning for other ruby developers, learning sessions for project team, learning for managers, technical writing (medium articles)
- multiple area owner in several project, more often lead developer in several projects
- presenting new programming languages and technological stack for team
- remote work experience in different teams, including working in foreign countries

Languages

Mother tongue: Russian

Other Languages: English

Other
